

Unisource Capital

Your one source for leasing

Equipment
Leasing

WORKING FOR YOU IS OUR COMMITMENT

No matter if you are a technician, business owner, or an equipment distributor, we want to see you make more money. Unisource Capital is the premier equipment leasing company in the United States. We have been in business since 1994 and hold the trust of some of the leading companies in the country because we put our customers first. Whether you are large or small, a lease customer, or a vendor, we can design a program to meet your needs.

Our intent is to provide our customers with a standard quality of programs, rates, and services unmatched by anyone in the industry. We will take the time to understand your business and deliver leasing solutions that work for you to help you make more money.

BENEFITS OF LEASING

- Custom leases to fit your specific situation
- Special programs for start-up businesses
- Competitive rates for "A" credits as well as the financially challenged
- Quick responses to your lease application
- Substantial tax benefits
- Business credit lines remain intact
- After-tax cost of leasing is frequently much lower than any other form of financing
- Overcome budget limitations
- Virtually 100% financing with no huge down payments

A LEASE IS NOT AN EXPENSE, IT IS A WAY TO MAKE MONEY:

Leasing just makes sense for anyone wanting to make more money. If you own an auto repair shop you could make \$90.00 doing as little as one wheel alignment with a new alignment machine and alignment rack. If you do 10 alignments a day, using a five day work week, you can make \$4,500.00 a week or \$18,000.00 a month. If your lease payment is, for example, \$625.00 + tax per month on a 5 year lease term then your gross profit from leasing the equipment would be over \$17,000.00 per month. You would not have this extra income if you did not lease the new equipment. Finally, once the lease term has ended, you own the equipment and keep all the money you make from the use of your new machine.
